I wish to express appreciation to James Baughman who suggested this as a worthwhile project for my Eagle Scout advancement; my Mom and Dad, Sheila and Raul Nieto, who whole heartedly supported me in my efforts; and the Boy Scouts of America, Team 289, Calumet Council Region, Griffith, Indiana of which I am proud to be a part, for their encouragement and support in helping me to finish my project.

Timothy H. Ball captions Chapter VII "Burial Places" in his history LAKE COUNTY 1834 - 1872 edition. Historian, preacher, philosopher, teacher or author, he was first and foremost a friend who visited, travelling on foot most of the time, practically every home in the county of Lake. The present east line was determined in February 1837, when by an act of legislature, Porter County was divided and the west part called LAKE. The townships were set up and named as follows:

1. NORTH
2. HOBART
3. ROSS
4. ST JOHN
5. HANDOVER
6. CENTER
7. WINFIELD
8. WEST CREEK
9. CEDAR CREEK
10. EAGLE CREEK

Ten---numbering from north west to east, east to west, and west to east; and again west to east at the south end of the county, bounded by the Kankakee River.

After a most interesting dissertation about how the living take care of their dead, he lists and locates the various "Burial Places". He also notes their condition,

"considering that they belong to our progress and our civilization." He concludes the chapter....."In view of the growth, and the love of research and meditation, which we may surely look for three generations hence, I earnestly recommend to the citizens of Crown Point, to purchase and fence the Old Cemetery...it is in a very good situation for a quiet summer morning retreat for thought and solitude...and set it apart as the resting place of slumberers who are there "forever"... Then I earnestly entreat that they let the second one remain, refence it and care for it, and let the two hundred sleeping bodies that are there sleep on. It is a poor civilization to be continually moving the bones and ashes of the dead." A total of 38 burial places are thus described.

Timothy Ball surveyed these cemeteries from Ross Township in his book; LAKE COUNTY; 1834 - 1872.

1. Cemetery at Ross; 1872, no comments, cared for
2. Cemetery at Merrillville; 1872, no comments, cared for.
3. Deep River. Family burial place. This is perhaps the oldest in the county, having been first used in 1836. Cared for 1872. (This is Woodvale Cemetery)
4. Wilkinson Ford. Deep River. An old burial place, some bodies have been removed. This old spot is now part of a cultivated field... This spot ought yet to be rescued from the plowshare, consecrated as it has been, by the burial of old settlers; or the human remains there resting should be removed to a quiet cemetery which is sacred to repose. 1872 (We were not able to ascertain where this cemetery is. Both in the 1954 and the 1988 survey.)

5. Cemetery near Joliet Road, between Deep River and Merrillville. Tolerably protected. (We believe this to be the Chester Cemetery.)
6. Ground on the farm of W T Dennis contains some thirty graves. Here are buried many old settlers, the Beebers, Dustins, Sturdeyvants, Cleveland and others. Has not been used for burial purposes for five or six years. It ought to be protected and secured against desecration. 1872
7. Holtzworth family...not mentioned in Timothy Ball's book. It was discovered through the research done by the D A R in 1954. It is described as "south of U S 30 a few rods on the old Merrillville road, a few rods east, over a creek on a knoll, clump of trees...6 graves. John Hein Jr. owns land. Credit to "Uncle Kip Kinney".

The Julia Watkins Brass Chapter, Mrs. C. Edwin Black, regent and Mrs. Joseph E. Brown, historian, in 1928, started to make the survey of cemeteries established prior to 1880. Fortunately the two afore mentioned burial places still had traces of markers, although the "New" cemetery, called Maplewood, was presumed to have been the place to which the bodies had been removed. Reverend Ball's prediction came true, 1872 - 1928, fifty six years had passed; were it not for the history project of the National Society of the Daughters of the American Revolution to arouse and promote interest in making records of local places, incidents, etc. of importance in the passing of time, these two spots would have been completely erased from our city.

The survey was reported to state and national historians but nothing more was done with the survey until the regency of Mrs. Walden A Mc Bride, 1953 - 1956. During the summer of 1954, the survey was renewed. Mrs. Joseph E.

Brown, who had never lost interest, but had not found a companion with equal zeal to complete a county wide survey, welcomed the invitation and so the "Cemetery Survey" team worked zealously the weather permitted and tabulated results when it was otherwise.

The cemeteries they surveyed in Ross township are as follows:

1. Chester
2. Dennis
3. Holtzworth
4. Merrillville
5. Ross
6. Sts Peter and Paul
7. Woodvale

In the fall of 1987, Michael Nieto was looking for an Eagle project for Boy Scouts. The idea of going through some of the old cemeteries in Lake County and updating the veterans was suggested, but after some preliminary research the idea was shelved as not having enough substance. But after some more research was done, it was suggested that it would be of benefit to take a township and simply update the entire cemeteries listings....with special emphasis on the historic cemeteries in the area. Such updating would not be practical or necessary for cemeteries like Calumet Park which has over 26,000 people buried there, but the historic cemeteries in Lake County have no such system for keeping

records current. After Michael conferred with his Scout leaders and his parents, he decided to take this project on. The result; an addition of over 600 names to the directory of cemeteries in Ross Township. The comments from those who helped with this research; This was fun, I'd like to do more..... I can really see the value of this project..... Why didn't you call me sooner?... Nice to say, there were no negative comments. The most rewarding part of the effort, and the most exciting was what was accomplished at the W T DENNIS cemetery. It would be more than gratifying if this cemetery could be cleaned up and cared for properly. Think how much of the heritage and history of Lake County lies buried in this unknown spot!

I would like to express my appreciation to the Rachel Campbell Wilcox Chapter of the Daughters of the American Revolution...with special thanks to the Regent Viola (Gene A.) Nance, who helped us start this project.

ROSS CEMETERY; ROSS TOWNSHIP

The small town of Ross is located about ten miles north and west from Crown Point. Originally established in 1857, it has remained principally a small residential area. The cemetery is well kept and is still used. It is located on the east side of the road that leads south out of the village about one half mile from the town. It contains about ten acres, is neatly fenced, has three drives and a broad gateway at the center drive.

The above is excerpted from existing D A R records from a survey taken in 1955.

The town of Ross is now located in an area we call Calumet Township, which is part of Ross Township. It is located on the west side of Whitcomb St. just south of 47th Avenue. 45th Avenue would give easiest access to Whitcomb St. The cemetery is very well maintained and is probably in the best condition of all the cemeteries in Ross Township. A sign near the main gate says: Ross Cemetery 1860:
The Upkeep of this Historic Cemetery needs your contributions and help. Ross Cemetery Association. The Association meets annually on Memorial day at the Cemetery.

MERRILLVILLE CEMETERY; ROSS TOWNSHIP

This township cemetery is in very good condition. It is located about one mile east of the Road 53 on the Road 330 on the north side of the road.

The above is taken from existing D A R records, from a survey done in 1955.

The cemetery is located on 73rd avenue, 1 mile east of Broadway on the north side of the road. (Before the I-65 overpass.)

Many of the older headstones in the cemetery are in poor condition from weathering and acid rain. The grounds are well cared for and the cemetery is still in use. More than 60 new entries were added when the cemetery was updated in June of 1988.

NOTES OF INTEREST: From THE CALUMET REGION HISTORICAL GUIDE, page 20, we found the name of George Zuvers, a veteran of the War of 1812, as being buried in Lake County. Since the area around Merrillville was the home of the Zuvers family, it might be thought that George Zuvers may be buried in the cemetery, with no marker identifying the plot.

From the same publication, page 31, footnote 1, an Alvin Green of Merrillville was listed as still a resident of Lake County, in 1885. He is listed as a veteran of the Mexican War.

WOODVALE CEMETERY; ROSS TOWNSHIP

Timothy Ball, in his book, LAKE COUNTY: 1834 - 1872, page 139, says of this cemetery: "Family burial place at Deep River. This is, perhaps, the oldest in the county, having been first used in 1836.

Deep River is located on old U S 30, now called 330. It is east of Merrillville. The cemetery is east of the community and north after crossing the bridge which spans the river. John Wood entered his claim here in 1835, and brought his family in 1836. He built the first grist mill, which is still standing, in 1838.

In the center of a park like area on the north side of 330, is a native boulder with a bronze plaque which reads as follows:

1800 John Wood 1883

1802 Hannah Pattee Wood 1873

From Danvers, Massachusetts

Entered claim and built log cabin 1835

Brought family in 1836

Erected first grist mill in Lake County 1838

Set aside this commons and planted elms

Advocated and practiced honest morality,

temperance, liberal religion and industry

Charter member of Masonic lodges at Valparaiso,

Crown Point, and Wheeler

Reared their family, died here, buried in cemetery
established by them in 1836
Bronze was "Erected by descendants in 1924"

The above was quoted from a survey made of the cemetery
by Mrs. Joseph E Brown and Mrs W A Mc Bride of the Julia
Watkins Brass Chapter, N S D A R, July 23, 1956.

The survey done in June of 1988 found the cemetery to be
in good condition and well cared for. The land around Deep
River at this point belongs to the Lake County Parks
Department. The old grist mill mentioned above has been
restored and is one of the main attractions of the park. The
cemetery lies on what is now called County Line Road. The
park lies at the junction of 73rd Avenue and County Line
Road. The cemetery lies just north of 73rd Avenue on County
Line Road.

HOLTZWORTH CEMETERY; ROSS TOWNSHIP

Through an interview with "Uncle Kip Kenny", father of Cecil Kenny of Leroy, we learned of the existence of this small family cemetery. It is on property rented by Mr. and Mrs. John Hein, Jr. from the Adank family. It is located about and eighth of mile from the house, which is on the east side of the Merrillville road just before it crosses U. S. 30. It is on a small knoll, just beyond a ditch. Four trees and a dense growth of grass conceal the stones from view on the road. Mrs. Hein told us the the story had been handed down that a plague had caused the death of the entire family--parents and seven children. However, we found only four stones; the others, if there were nine, have been carried away.

The present owners do not pay taxes on approximately ninety square feet of property in the cemetery plot, and hope to remove the remaining stones next year--one hundred years following the last burial. The land, we learned, had been a grant by President Polk to Mathias Holtzworth in 1846, it was sold to Daniel Fail, then to Walter Demmen, and then to William Adaak. The abstract shows a Mathias Holtzworth and his wife, Maria, and an heir; Rosina and Mathias and his wife, Christine, as late as 1868 or 1870.

The above is excerpted from present D A R records taken from a survey done in 1955.

Today's Lake County assessment record indicates that the cemetery is still the property of one Gottlieb Holzworth, who died sometime around 1890. He is listed in the 1860's through 1880's Ross Township census records, but not in 1900.

He was apparently still in the area after 1880, because he recorded numerous land transactions that are found in old county records. The 1890 census was destroyed in a fire at the National Archives in Washington, D C sometime ago. So they could no be consulted for further information on his household.

Gottlieb's name is still on the property. Even after he sold off most of his land before 1890, it was stipulated that all of the land would be transferred to each new owner except the wagon road, which is now called 82nd Place, and the burial plot.

The above is excerpted from an article written by J R Ghrist and printed in The Star Register, Thursday Jan. 18, 1979.

As of this survey, June 1988, the cemetery is still in tact and has been cleaned up. The lawn is neatly mowed and all refuse is gone.

Only two of the four headstones are still there. Four footstones are there.

CHESTER CEMETERY; ROSS TOWNSHIP

This cemetery is sometimes called the Ainsworth Cemetery by the residents in the community. It is located on the west side of Indiana Road 51 between U. S. 30 and 330. It has an area of about two acres with the ground some four or five feet above road level, sloping down to the west. It is enclosed by wire fencing on the north, south and west. It is fairly well kept, with only a few stones being broken.

The above information is excerpted from the present D A R records, from the survey done in 1955. .

Chester Cemetery is located on U. S. 51, between 73rd Avenue and U. S. 30. At the time of the present survey, June 1988, many of the stones are broken off. The grounds are still well kept, and the peacefulness of the area seems to be well preserved.

NOTE: RE CASTLE HEADSTONE: This is a single stone of a
later period than the death date. It was installed by
Kelly and Son. Tradition has it that this is on
property originally owned by Nathaniel P Banks.
Present day owners are the Truitt family, though this
property was formerly owned by John Knotts. The
marker is a few feet south of Deep River, which cuts
through the Property, on a high bank in an area
completely covered with scrub bushes and blackberry
briars. Tradition further tells that the river was so
completely covered by snow and overflowing that the
pall bearers could not cross the river even after a
two day wait, and so the casket was buried on this
spot. We have placed him in this record since there
are other Castles buried in Chester Cemetery. We are
indebted to Mrs. Huseman, wife of the tenant, who
directed our search for this stone. (This is
excerpted from the original D A R Record.)

W T DENNIS CEMETERY; ROSS TOWNSHIP

On pg. 140 of his book Timothy Ball has this to say.
"Ground on the farm of W T Dennis contains some thirty graves. Here were buried many old settlers, as the Beebers, Dustins, Sturdeyvents, Cleveland and others. Has not been used for burial purposes for five or six years. It ought to be protected and secured against desecration."

This survey made by Mrs. Joseph E. Brown and Mrs. W. A. Mc Bride of Julia Watkins Brass Chapter, N S D A R on July 23, 1956. The site of the cemetery and some of the stones were located by the help of an elderly Mr. J. Sturdeyvant who has lived on the property all of his life. He told us that there were some twenty-five to thirty stones in the completely covered area some fifty rods from the narrow road. We succeeded in locating only a very few.

Mr. Sturdeyvant told us that his father had taken the land in 1840, and that he settled on it in 1848. He mentioned burials of the same families as listed by T. Ball, and also the burial of a new unknown Mexican War soldier, supposedly buried with gold he had brought back from California. The old Michigan City road went south of the cemetery, angling off to the north to cross Deep River. It is here that probably is the Wilkinson Ford of which Ball speaks. The barn now stands on a part of the old road site.

The above is excerpted from the original D A R records.

During our search in June of 1988, we found that the cemetery is over grown with trees, shrubs and briars. Since the cemetery is off the road approximately half of a city block, it would be necessary for any one who is interested in viewing the cemetery for themselves, to wear appropriate clothing. Only three of the stones were still visible, but we felt that it was important to discover for ourselves whether any other stones were present. After two hours of digging and prodding the ground, we were able to find an additional six stones. We are sure there are more there. It would be helpful if a diagram of the original cemetery were available, but as far as we have been able to discover, there isn't any.

The land is now under the ownership of the Lake County Parks Department. Decendents of the original owners still live on the farm adjacent to the burial ground.

The cemetery is located south of U S 30, on Randolph Street. (Randolph Street is between State Road 51 and County Line Road) Take Randolph street south to 89th street, turn east. On the left side of the road there is a house, just past the house is an old barn, which lies on the old Michigan City road. It is dirt road curving around to the left. Park just past the barn and then it will be necessary to walk in to the cemetery, which is to the north and east of the barn. It is not visible from the road.

One of the stones we found is from a civil war soldier
who died in 1862.

STS PETER AND PAUL CEMETERY; ROSS TOWNSHIP

This Catholic cemetery is located on the north side of East 56th Avenue off the south extension of Broadway as it comes through Gary. It is approximately seven blocks from the junction of Broadway and 56th Avenue. It lies on a curving road as it goes east.

The church is located some few miles to the west at 57th and Harrison streets. Efforts to ascertain the why of the wide separation of distance between the two properties came to an unsuccessful end.

Timothy Ball in his book, LAKE COUNTY, 1834 - 1872, does not list this cemetery in his grouping. However, on pg. 180, he tells that the "Church of the Holy Apostles Peter and Paul at Turkey Creek, the above church, had first a log church built in 1852. The present building of Joliet limestone built in 1864--" He lists 40 families as members with the property valued at \$3,000.

The above is taken from the existing D A R records; 1955.

The present survey was done in June of 1988, as part of and Eagle Project for Boy Scouts. Sts Peter and Paul cemetery is located between Broadway and Georgia St. on east 56th Avenue in north Merrillville.

Many of the older stones in the cemetery are totally unreadable due to weathering and again because of the damage

caused by acid rain in our area. The cemetery is well cared for and is still used. Approximately 100 names have been added to the present listings.

CALUMET PARK CEMETERY; ROSS TOWNSHIP

Calumet Park Cemetery is the biggest cemetery in the Ross Township area. It is located at the corner of 73rd Avenue and U S 55 (Taft Street) in Merrillville. It comprises several acres of land. When inquiries were made as to the size, they were not able to give us the exact number of acres the cemetery covers. The first burial was in 1929 according to their records. As of June 1988, they have recorded over 29,000 burials. The cemetery keeps excellent records of who, when, and where as to burials. There was no need to update this cemetery.
